SPECIE LIST OF

cek, and the ecremonics were witnessed by large numers.

Capt. Thomas R. Hope committed suicide during the last part of last week, at his residence on Pine street, whooting himself through the breast. He was capin of the steamer fluadaloupe, and pecuniary embarssments were stated to be the cause of the rash act. A man named Ebeneser Jamieson was murdered Sepunber 8, on Broadway. by some persons unknownered persons in the neighborhood were arrested, but to the present time no clue to the detection of the nuclears has been discovered.

A woman named Barry died at her house on the Old ission Road a few days since, ef destitution. She had drunken husband, and when she was taken sick he bandoned her to her fate.

At 12 o'clock on Thurrday night, the 14th instant, a fificulty took piace between two men named Peter eeder and James Campbell, in a saloon corner of Kearey and Commercial streets, when the former shot Campil through the breast and killed him instantly. Very was arrested and placed in the station house. In the casty part of the month, some apprehensions ere entertained that the ctolers would be introduced mong us, and as the Chinese, from their filthy habits, ould be likely to afford material for the spread of the sease, a crusade was commenced against them. The hinese merchants became alarmed, and agreed to build hospital for sisk Chinamon outside the city limits, thin the space of one month; but some officious perms got among them and informed them they were not ampelled to do so, and so the matter fell through. A ringent ordinance was passed by the Common Council, and the new Health Inspector will no doubt come down cuty heavily on the Asiatios. The arrivals of Chinamen at this port, during the present year, exceed ten house.

Total. \$1,961,406 in addition to the above heavy amount of shipment of treasure, \$700,00 of United States transfer drafts on the Assistant Treasurer in New York, were sold by Major Sayder, Assistant Treasurer of the United States; 900,000 of which was purchased by Prge, Bacon & 'o, and the balance (100,000) by another party. This amount should be added to the specie report, as these drafts take the place of so much gold dust, which would otherwise have gone forward. And what is far better, it is an addition of so much cash capital to our city, as the whole amount is to be paid out here in a short time on government contracts.

Hint Statistics.

It is impossible to give an exact account of the operations of our mint up to the time of the salling of the stermers, and the best we can do is to give a general statement, approximating to it. We publish below the official account for the month of August, for which we are indebted to the courtesy of L. A. Birdsall, Esq., Superintendent, who informs us that the deposits for the first half of the present month are about in proportion to the operations for the month of August, and the coinage in nearly the same proportion.

SACRAMENTO, Sept. 14.—The amount of trade transact ed to day has been generally of average character, and much lighter than on yeaterday. But little variation is observed in the produce market, which is well stocked

will come into the Wilmmetre valley in the southern part of the territory.

Constituto of the Tengroupy —In an article urging the formation of a State government, the Standard says:—"Our Territory is in a needy condition. Money is hardly to be obtained; trade is inactive; manufactures we have not; our farmers are discouraged, and the whole people and the whole country are in a suffering condition. We are consident the remedy is to be had only in the creation of Oregon into a State government, invested with plenary powers to epon wide the doors of welcome and safety to the capitalist and laborer. Until them we despair of beholding the intriusic wealth of the country paying the proper tribute due to labor."

Coose Bay Coal.—Mr. Elossom has shown the editor of the Portland Trame, a specimen of coal from Coose Bay, which in appearance is superior to any yet seen on the coast. Mr. Elossom states that the vein from which he took the sample is at least ten feet thick, where coal exists in inexhaustible quantities.

RUMORS OF INDIAN HOSHITHES.—Says the Stateman—Rumors reach us of more serious apprehensions of Indian difficulties in Regue River Valley. We learn that Joe, head chief, has intimated that he will be unable to restrain his warriors from hostilities, and proposes to surrender binacel to the whites, leaving the balance of the tribe to light out their differences.

QUICKEST IMP.—Dates from New York to July 19, were received in Portiand, O. T., August 19—only thirty days on the way.

FULLHER DISCOVERIES OF GOLD.—A correspondent of the Oregonian writing from St. Helens, Aug. 14, says:—"I left this place on Monday last, in company with a few old friends and experienced miners in search of gold. We proceeded on the trail that leads to the upper country as far as the large prairie, 30 miles from this place, in Washington Territory, and prospecting a few miles for the light projections of rock, and the stream in it so rapid that gold could not step to ascertain whether it would pay. Before I left for home, a company

Inter from the Society and Marquesas

Islands.

By the arrival at San Francisco of the brig Swiss Boy,
Copt. Dexter, we have nows from Blacquesas to the middle of June. There was much fighting between the natives of the different islands of the Marquesas group, in
which the French did not appear to take any interest,
but satisfied themeelves with looking on from their position in the harbor of Caihalo.

The missionaries rent there some time since, via the
Sandwich Islands, had not succeeded to their satisfaction
in endeavoring to establish their reseats with the inhabitants, and talked of abandoning the mission at the island
of Magdalona, and returning home.

The whaling bark Pantheon, Captain Barzard, 116 days
from New Bedford, (no oil.) had touched at the Islands,
and salked for the Arctic Ocean. While at anchor at Unbuga, her crew set fire to her, but it was discovered and
extinguished with but trifling damage.

There was no news of interest at the Society Islands,
At Huabelon it was perfectly quiet—the revolutionary
chief having firmly estab ished his authority. He is a
half breed, represented to be the son of a whaling captain
by a woman of the Islands. He has acquired a fair education, and much general information, and a person of
much firmness of character.

NEW YORK POLITICS.

VALUABLE INFORMATION FOR YOTERS.

Resume of the Work of Ten State Conventions Held in New York, from July 12 to October 7, 1854,

The State conventions having concluded their labors, we proceed to give the HERALD readers a clear summary of their results, with the platforms adopted, and the several tickets nominated by each. The nominees, of

The following is a summary of the conventions, chronologically arranged:—

1. National Democratic Convention, at Syracuse, July 12.

2. Anti-Nebraska Convention, at Syracuse, Sept. 6.

3. Democratic State Convention, at Syracuse, Sept. 6.

4. Whig ciste Convention, Syracuse, September 20.

5. Free Democratic Convention at aburn, Sept. 25.

5. Anti-Nebraska Convention (adjourned from Saratogs), at Auturn. September 26.

5. Sectors' Anti-Nebraska Convention, at Auburn, Sept. 27.

5. Saite Temperance Convention, at Auburn, Sept. 27.

1. Letty Party Convention, at Syracusy sept. 29.

6. Know Nothing State Convention, Odd Fellows' Hall, New York City, Sciober 4, 5 and 6.

NATIONAL DEMOCRATIC CONVENTION, HELD AT STRACUSE, JULY 12. Samuel Beardaley, of Utics, was President of this Con-ention. The following resolutions were adopted. They

didates, to the committee charged with the duty of in-

The following are the letters from each of these candidates, to the committee charged with the duty of informing them of their nomination:

GREENE C. BRONSON TO THE COMMITTEE.

NEW YORK, tept 4, 1854.

GENTLEMEN—In answer to your communication, I respectfully refer to the published proceedings of the State Committee at their recent meeting in this city, and need only add, in this more formal manner, that my nomination for the office of Governor by the Demo ratic Convention of July last, is accepted, and my former letter to you an the subject is of course recalled.

My political principles and opinions cannot be unknown to the people of this State, and your letter calls for no avowals; but I will not omit to notice, very briefly, one or two of the exciting topics of the day.

We have, among other things, tolemnly agreed to deliver up fugitives from service, and unless we wish to discove the Union, the contract should be fathfully performed. If any among us regard it as a bard bargain, still, so long as we continue to take the benefits which the constitution confers, common housesty requires that we should bear the burdens which it impores.

I am decidedly in favor of allowing the people of every States and Territory to regulate their domestic institutions for themselves, instead of carrying such matters into Congress, where they have already proved a dangerous bone of contention. There is no substantial reason why there should be strike between the different sections of the Union; and all controversy will cease when each discharge its constitutional obligations to the others, and the people of every section are left to manage their own internal affairs in their own way.

Whether such sentiments are now popular or not, I entertain no dorbithat they will ultimately be up proved by a great majority of the people of this State. Error and fanatacies may triumph for a time, but reason will prevail in the end.

I have received letters from other sources asking pledges that I will act in socordance with the views of the

CENTIFICATION IN THE RECONSTRUCTURE OF THE PROPERTY OF THE PROPERTY OF THE STATE, as their candidate for the office of Lightenant Governor. I gratefully ac-

These candidates sent the following letters in ansa

to a circular prepared by a committee of the Sarat convention:

MYRON H. CLARK.

HENRY J. BAYMOND'S LETTER.

LIMA Sept. 25, 1864.

GENTHEMEN—I have the honor to acknowledge the reorigit of your circular letter, asking how far I hold the
principles and approve of the policy developed in the resolutions adopted at the Saratoga State Convention on
the 16th of August. In reply I have only to say that I
approve of both to the fullest actent, and hope they may
be followed by such energetic and judicious action, both
in this State and at Washington, as will give the me the
greatest practical effect. I am very respectivity, your
obadient servant.

HENRY FITZHUGH'S LETTED.

GENTIONEN—I have the pleasure to acknowledge the
peccipt of your letter endorsing the re-olutious peaced as
